

Hi! I am Freddy the Forklift Fixer.

This is me when I'm pleased.

This is me when I'm concerned.

Right now, I am concerned about replacing the [worn out risers](#) under my Crown PE3000 because the bearings burnt out from shrink wrap around the wheels:

A BIG problem in warehouses with shrink wrapped packaging!

Fortunately, available now:

A low priced \$395 riser assembly with bearing saver wheels from Hettinger) fits the bill.

My grimace

Turns to a grin!

This is me happy to stay within budget and get better utilization from my Crown PE3000 palette jack!
